From target to action

Local & Regional Energy Actors towards 2020

10 – 11 December, 2009

Venue: Hilton Malmö City, Sweden

Organizer: FSEK, the Swedish Association of Regional Energy Agencies

The European Union has set challenging targets in the EU Climate and Energy package, aiming for at least 20% reduction of greenhouse gases, 20% of produced energy from renewables and 20% reduction of energy use to 2020.

Which role can local and regional energy actors play in achieving these targets and what support can the European Commission provide? New working areas are likely to occur. What are the strategies needed to cope with these?

Take the opportunity to attend a highly topical event, discussing the future role of European Energy Agencies. Study tours will be arranged, highlighting Swedish state of the art in renewable energy and energy efficiency.

The Energy Agency conference is located in Malmö, close to Copenhagen, where the UN COP 15 meeting and a large number of side events are taking place.

The conference addresses Local, Regional and National Energy Agencies as well as equivalent organizations within the EU.

Welcome!

Program

Wednesday 9th of December

19.00 Ice breaker

An opportunity to socialize with early arrivers over a drink. Place to be announced.

Thursday 10th of December

8.30 – 9.00 REGISTRATION

9.00 – 9.10 Welcome *Anders Rubin, Local Government Commissioner, City of Malmö*

9.10 – 9.20 Introduction *Jon Andersson, President, Association of Swedish Regional Energy Agencies*

9.20 – 9.50 EU climate and energy package, 20-20-20

The EU has come up with a new set of climate and energy targets. Why where these targets chosen, how where they processed and what do they mean in reality? What are the challenges laying ahead? *Anders Wijkman, Tällberg Foundation, former member of the European Parliament*

9.50 – 10.20 European energy agencies, the IEE programme and the evolving energy landscape.

European energy agencies are efficient partners to help local communities with the challenge of implementing the 20-20-20 objectives. In a fast-moving agenda, the EU is supporting the projects of local and regional actors. *Damien Cocard, Project Officer, EACI*

10.20 – 10.40 Questions

10.40 – 11.00 Coffee break

11.00 – 11.30 An Eco effective future in Europe

The European Union's climate and energy package is expected to lead to several new work opportunities and increase GDP within the union. What are the thoughts of the Swedish Ministry of Enterprise, current EU presidency country, on these matters? Is there a masterplan to be launched to reach these goals? *Fredrik von Malmborg, Ministry of Enterprise, Energy and Communications*

Program

Thursday 10th of December

11.30 – 12.30 **Local and regional examples**

Invited energy agencies present their working strategies and give their view of future challenges.

12.30 – 12.40 **Discussion**

12.40 – 13.40 **LUNCH**

13.40 – 14.10 **From targets to real action**

Setting ambitious targets is one thing, reaching them and accomplish real time measures is another. What are the thoughts on the topic of FEDARENE, the premiere European network of regional and local organizations which implement, co-ordinate and facilitate energy and environmental policies. *Catrin Maby, Vice President Awareness & Education, FEDARENE*

14.10 – 14.30 **Live report - UN COP15 conference**

14.30 – 17.00 **Workshop - What do possible future energy scenarios look like and what could future work areas for European Energy Agencies be?**

Kairos Future is a leading international research- and consultant business in their field, helping business and organizations to understand and shape the future. Kairos Future will support us in exercises dealing with issues such as analyzes, strategy building and preparation for future work areas. Including coffe break. *Fredrik Claesson, Senior Consultant and Future Strategist, Kairos future*

17.00 – 17.30 **Sum up**

What have we learned during the day? What are the key issues? What will be the next step? *The Association of Swedish Regional Energy Agencies*

19.00 **Dinner**

Program

Friday 11th of December

9.00 – 16.00 approximated time

We are offering three interesting study tours both within the City of Malmö and to relevant projects in the region. The themes are linked to successful examples of climate investments, energy solutions and clean-tech.

Study tour 1

Sustainable city development: Western harbor, Bo01 – 100% renewable energy, urban regeneration in Augustenborg, solar installations on public buildings and other climate investments in Malmö.

Study tour 2

Renewable energy in the urban environment of Malmö: e.g. heat and power, from waste to energy, district heating/cooling, biogas.

Study tour 3

Biogas region Skåne: Production, upgrading and distribution of biogas, gas vehicles and gas driven public transport.

Practical information

Date: Thursday 10 – Friday 11 Dec 2009

Venue: Hotel Hilton Malmö City. [Find it >>>](#)

Malmö is situated close to Copenhagen, only 30 min away by train. It is easy to access Malmö from the airports Kastrup (Copenhagen, Denmark) and Sturup (Sweden) as well as by train from the continent.

Registration: Please register at www.ek-skane.se/eac

We need your registration before **20 November**.

Please note that hotel rooms are held for the participants only until 10 October! After this date it might be difficult to get a hotel room in the area.

Conference fees:

	Conference day + study tour 10 + 11 Dec	Conference day 10 Dec
Before 8 Oct	120 €	90 €
After 8 Oct	150 €	120 €

All prices including VAT

The fees include: Lunch, coffee/tea during morning and afternoon breaks, icebreaker 9 Dec, dinner 10 Dec.
